

**1995-1996 Protégé Headlight Switch
[Recall #91007]**

Dear Mazda Owner:

This notice is being sent to you in accordance with the requirement of the National Traffic and Motor Vehicle Safety Act.

Mazda Motor Corporation has determined that a defect, which relates to motor vehicle safety, exists on certain 1995-1996 Protégé vehicles produced from June 1994 through July 1995. **If you are the recipient of this notice, your vehicle is included in this campaign.**

What is the Problem?

There is a possibility that while using the turn signal lever, an intermittent flickering of the headlights may occur. In some cases, however, the headlight switch wire could break resulting in the loss of headlights.

What will Mazda do?

Your Mazda dealer will replace the headlight switch lever with a modified part at **no cost to you**. This repair should take approximately 45 minutes to complete, however, it may take longer depending on the service workload at the dealership.

What should you do?

Please make an appointment with any authorized Mazda dealer to have your vehicle repaired. You do not need to bring this notice to the dealer, however it may assist in the check-in process.

What if you have already paid for repairs to the headlight switch or the combination switch?

If you have already paid for repairs of the headlight switch or the combination switch, **due to a headlight switch failure**, you may be eligible for reimbursement of reasonable repair expenses based upon Mazda's repair standards. Please complete the enclosed "Reimbursement Application Form", including the necessary documentation and mail it to us in the pre-addressed envelope provided, allowing 6-8 weeks for processing.
